

## Security Questions

We will be using these questions to help us ensure that your responses during the study are completely confidential. At the beginning of each survey and each telephone interview, we will ask you to answer these questions. At the conclusion of the study, these responses will be used to link your responses across the surveys and interviews, and with your partner's responses. Your responses need to be exactly the same each time. *Please confirm that you have the correct answers for your partner* (that is, please check that you two are providing the same responses for each person). Please save this form until completion of the study to ensure that you answer similarly during each stage of the study.
